STAT

With further reference to my telephone conversation with you yesterday, I wish to advise that the Board of County Supervisors of Fairfax County, at its meeting on October 18, requested the cooperation of CIA with the Virginia Department of Highways in undertaking to relieve traffic problems now existing at the entrance to CIA. It was suggested that the possibility of an additional entrance through the Bureau of Public Roads' property might be feasible and might help solve this problem.

It will be sincerely appreciated if you will see that this request gets to the proper officials of CIA or any Federal agency which may be involved in this matter.

Sincerely,

Carlton C. Massey
County Executive
